Art Unit: 2816

1. The amendment filed on 9/29/04 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. The disclosure is objected to because of the following informalities: on page 4, line 6, "source" should be changed to --drain--, and on line 8, "drain" (first occurrence) should be changed to --source--. This objection to the specification was set forth in the previous office action in paragraph two. Applicant's argument that the source-drain description is correct is not understood because, as shown in instant Fig. 1, FET 15 has its drain connected to ground through resistor RDG (not its source).
4. Claims 1-3, 23 and 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Osborn et al.

See paragraph five of the previous office action for the details of this rejection.
5. Claims 4-11, 15-22 and 34-37 are allowed.

Art Unit: 2816

6. Applicant's arguments filed on 9/29/04 have been fully considered but they are not persuasive.

The argument that neither of the inputs to comparator 230 is a voltage related to the drain-source voltage of the power MOS device is not persuasive because it is incorrect, i.e., there is clearly a relationship between the voltage at node 236 and the drain-source voltage of FET 210 or FET 206 (because as the inputs of comparator 230 change, so does the output thereof, which controls the potential of the gates of both FETs 206 and 210 and this, of course, changes the drain-source voltages of these FETs.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
